

Manchester Metro

One of Europe’s fastest growing digital and technology hubs, and home to MediaCityUK

Manchester is a leading global metro with one of the world’s most advanced media centers—MediaCityUK. As the UK’s second-largest city, Manchester occupies a key strategic location in the center of the country, at the intersection of the UK’s highly resilient “figure-of-eight” fiber optic network. The city also features dense telecommunication connectivity to major UK cities, the U.S. and Europe. Combined, these factors make Manchester an ideal data center hub.

Equinix is the world’s digital infrastructure company. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our four Manchester International Business Exchange™ (IBX[®]) data centers are business hubs for 295+ companies. Customers can choose from a broad range of network services from 75+ local and international network service providers, in addition to interconnecting with a variety of broadcasters, content and digital media companies.

The Manchester colocation facilities enable customers to be part of a rich industry ecosystem, and are located in prime strategic locations near Manchester’s main business and media centers.

The value of interconnection

- Interconnect with 295+ of the world's leading organizations
- Optimize communications and exchange data with enterprises, content providers and cloud, network and internet service providers
- Leverage Performance Hub® to enable next-generation wide area network (WAN) architecture for secure and highly reliable connectivity to 75+ network service providers and 110+ cloud and IT service providers
- Address internet peering needs with direct connectivity to Equinix Internet Exchange™ and LINX Manchester
- Provide cloud and internet services quickly and easily to Equinix-deployed customers
- Achieve unparalleled cloud performance through on-demand and direct access to multiple cloud providers such as Microsoft Azure
- Maximize the use of digital channels with access to the main media hubs in both Manchester and London
- Interconnect with top content delivery networks (CDNs) to reduce latency and help improve user experience. Take advantage of close proximity to MediaCityUK
- Meet compliance requirements, now and in the future. Each Manchester IBX data center is highly accredited, including ISO 27001 (security management), ISO 22301 (business continuity management) and PCI DSS (card payments specific accreditation) certifications

Connectivity options through Equinix

Where both Campus Cross Connect and Metro Connect are available between a pair of sites, only Campus Cross Connect should be provided.
