

WINNIPEG METRO

THE KEY CONNECTIVITY GATEWAY BETWEEN EASTERN AND WESTERN CANADA

Winnipeg's central position makes it a prime location to connect Eastern and Western Canada. The city is also ideally situated to serve as an edge market or low-cost destination for cloud and content deployment.

Resting on the nation's internet and long-haul fiber networks as a major connectivity hub, the Manitoba capital sees strong presence from the retail, manufacturing, education and healthcare verticals. The metro is also home to many important enterprise, IT and financial business ecosystems.

Winnipeg Metro Facilities

The Equinix WI1 Winnipeg International Business Exchange™ (IBX®) data center is a two-story building offering 25,000 square feet (2,323 square meters) of rentable colocation space.

The site offers an energy-saving cooling configuration that includes an air-cooled chiller plant, CRAH units and underfloor air distribution. Security-wise, the building is protected by 24/7 on-site personnel as well as card-only access and CCTV.

Why Equinix

- Interconnect with the largest industry ecosystems.
- Optimize communications and exchange data with enterprises, content providers, and cloud, network and internet service providers.
- Leverage Performance Hub® to enable next-generation WAN architecture for secure and highly reliable connectivity to network, cloud and IT service providers.
- Provide cloud and internet services quickly and easily to Equinix-deployed customers.
- Interconnect with top content companies to reduce latency and help improve user experience.
- Certified to meet rigorous environmental and energy management standards.
- 220+ data centers, 63 major markets, 26 countries and an industry-leading >99.9999% average uptime record.
- Connect directly with our global ecosystem of 9,500+ customers that are interconnected with 378,000+ virtual connections.
