

# ACCELERATE AND SECURE YOUR JOURNEY TO THE HYBRID CLOUD

## Your hybrid cloud needs in one place

SCC and Equinix have come together to provide French organizations a secure enterprise application architecture based on AWS and VMware. Based on Platform Equinix®, and leveraging SCC's unrivalled domain expertise, this is a one-stop-shop to build, run and secure your hybrid cloud transformation.

By partnering with Equinix and SCC to deploy your AWS/VMware hybrid cloud you will benefit from consistently excellent application performance, end-to-end transformation services, the highest level of security and market-leading expertise.

## The challenges you face

### Business continuity for your apps

How can you achieve the same performance for your cloud and on-premise workloads without having to rebuild your applications?

### Network security

Security and risk management is a top priority. Challenges include handling potential outages and optimizing the migration of VMware workloads to the cloud.

### Hybrid cloud transition

When building a hybrid, multicloud strategy, many organizations want to be adjacent to the cloud. How can this be achieved?

### Skills gaps

Once your hybrid cloud journey is complete, you may not have the right in-house expertise to run it optimally. Finding support is vital.

## The key benefits of our solution

### Consistent application performance

The best application performance and experience regardless of whether they're running on-premise or in the cloud.

### Seamless hybrid cloud migration

Build next-generation, cloud adjacent applications that lay a digital foundation for your organization and smooth your path to a hybrid cloud future.

### A more secure network

Enjoy the same levels of security in your cloud and on-premise environments and optimize your security with direct connections to AWS that bypass the public internet.

### Accelerate your cloud journey

Leverage unbeatable expertise and technology to realize your hybrid cloud ambitions rapidly.

## Our leading capabilities enable your success

### Hybrid cloud transition path

SCC's unique, four-step process delivers a smooth and seamless path to hybrid cloud. SCC works with you throughout the assessment, planning and implementation phases; and once you've completed your migration, SCC provides a set of unique financial and optimization services to ensure you get maximum value from your investments.

### VMware Cloud on AWS

Rapidly extend your VMware environment to the AWS public cloud. Add a virtual data center into your on-premise VMware landscape. Extend, protect and migrate by using VMware Cloud on AWS with the same architecture and operational experience.

### AWS Direct Connect

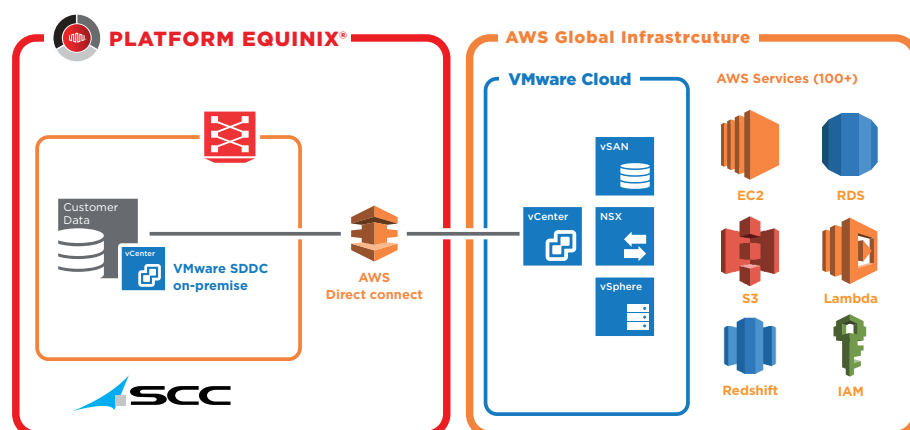

AWS Direct Connect bypasses the public internet and ensures private, dedicated connectivity and full integration between AWS services and business applications. AWS Direct Connect at Equinix allows you to connect to AWS with a dedicated, fast and secure connection in an Equinix data center in over 30 markets.

### End-to-end Services

SCC provides a one-stop-shop for infrastructure/hyper converged infrastructure, AWS and VMware licenses along with the advice to optimize your budget. Our transformative professional and managed services include storage and backup in the secure Equinix data centers.

### Platform Equinix

Platform Equinix is the global platform for digital business. Securely deploy your digital infrastructure anywhere you need. Dynamically discover and reach anyone on-demand through one connection to the world. Activate and effectively scale your digital edge through advanced technology tools and services. Build here, and go anywhere.

### Use Cases

#### Data center extension

Extend an on-premises data center to VMware Cloud on AWS.

Expand geographic reach and meet on-demand capacity or seasonal demand spikes.

#### Workload migration

Migrate workloads from a simple vSphere platform on-premises to a fully software-defined data center in VMware Cloud on AWS.

### About Equinix

Equinix connects the world's leading businesses to their customers, employees and partners inside the most interconnected data centers. In 52 markets across five continents, Equinix is where companies come together to realize new opportunities and accelerate their business, IT and cloud strategies. We operate the only global interconnection platform, sparking new opportunities that are only possible when companies come together.

### About SCC France

As a major European player in infrastructure IT services, SCC France is one of the leading French actors in the digital services enterprise market. Relying on a network of partners, national coverage, many service centers and a community of experts, SCC supports end-to-end companies and organizations, public and private, in their digital transformation journey.
